

Trigger Box, external

Code 3DA-A

- Suitable for coupling and uncoupling trigger signals
- Crash-proof and compact
- Internal shock sensor
- M=BUS[®] and NA3x compatible
- Trigger-bus
- 3 Switch outputs
- Trigger input
- RS485 I/O

Trigger box, external

Technical Specifications	
Miscellaneous	
Dimensions (L x W x H)	79 x 249 x 52 mm
Weight	980 g
Internal trigger	min. 8 G / 10 ms
Connections	
Power supply	(+) 9...30 V (20...70 mA)
Out 1 - 3	3 Trigger outputs electrically isolated
RS485	RS485 –compatible output to M=BUS [®] -Gateway
IN (Trigger input)	External trigger through NO contact or 12 V input
Bus (Trigger output)	Generation of 8mA current on the trigger bus
Out 4	For triggering the NA3x via digital in
Status messages	
LED Power	Power supply OK
LED Out	Trigger outputs active
LED RS485	Trigger input from M=BUS [®] -Gateway
Message contact on the power supply	Input voltage OK
